Our environmental policy

Last updated: 17.10.2026

Due to the responsibility towards employees, customers, the environment and the public, the management of G. Schmid GmbH has decided to introduce an environmental management system in accordance with DIN EN ISO 14001.

We therefore commit ourselves within the framework of our environmental policy

- to avoid / reduce the environmental impact of operations
- to continuously improve our environmental performance to comply with applicable environmental laws, regulations and guidelines
- to protect our employees and our environment from possible hazards
- for emergency preparedness
- so that climate-relevant aspects are considered and the organisation's commitment to supporting climate protection is expressed.

To achieve these goals

- we have regular controls, monitoring and evaluation activities are carried out
- there is regular training and instructions is given to all employees
- we value the conscious and careful use of resources
- we operate a modern machine park
- we use reusable packaging materials when possible
- we regularly carry out emergency drills

We inform all customers, suppliers, authorities and other interested parties who are in contact with us about our environmental policy.

In order to ensure the successful application of our environmental management system, we regularly carry out internal audits and are monitored at annual intervals by an independent certification body in accordance with the DIN EN ISO 14001 standard.
